

STEM CELL FORUM
Wednesday June 6, 2018
Time: 5:30-7:30 PM
The Francis Crick Institute
1 Midland Road, NW1A 1AT
Auditorium

17:30-18:00 PM Dr. Siim Pauklin

CRUK Career Development Fellow

University of Oxford, Botnar Research Centre

“Elucidating the Molecular Machineries that Govern the Formation and Maintenance of Pancreatic Cancer Stem Cells”.

18:05-18:35 PM Dr Adrian Briddle

Lecturer, Centre for Cell Biology and Cutaneous Research, Blizard Institute

Queen Mary University of London (QMUL)

“Cancer stem cells in squamous cell carcinoma: heterogeneity, plasticity, and therapeutic response”

18:35 -18:45 PM Dr Sarah Bowling

Imperial College, Post-doc in Dr Tristan Rodriguez’ group

“p53 and mTOR signalling drive cell competition during early mouse embryogenesis”

18:50-19:05 PM Dr Wing Chang

Stem Cell Technologies

Munchies and drinks will be provided StemCell Technologies
