

STEM CELL FORUM
Jan 23, 2017
Time: 5:30-7:30 PM
The Francis Crick Institute
1 Midland Road, NW1A 1AT
Auditorium (Left entrance)

17:30-18:15 PM Dr. Sylvia Santos, Group Leader

Quantitative Cell Biology Group
MRC-Imperial College London

“Decoding cellular signals: lessons from hES cell differentiation”

18:20-18:40 PM Dr. Emanuele Azzoni

(Post-doc in Dr Marella de Bruijn’s lab)
Oxford University

“Key signals involved in the regulation of embryonic hematopoietic niches”

18:40 -19:00 PM Dr. Charlotta Boiers

(Post-doc in Prof Tariq Enver’s lab)
University College of London

“A human IPS model implicates embryonic B-myeloid fate restriction as a developmental susceptibility to ETV6-RUNX1”

Munchies and drinks will be provided
